AFTER

ELECTROLUMINESCENT PANEL REPAIRS

If your cockpit panels are dim, cracked, or not lighting, **CPR** can repair and refurbish those panels to look and light like new.

BEECH, LEAR, PIPER, MOONEY, ETC...

CPR is not just for Cessna! Panel repairs can be performed on most any make or model aircraft. Call your local Cessna Service Station to ask about the availability of your make and model of panel.

LOWER COST & LEAD TIMES VS. NEW PANELS

New panels, if still available, take a long time to build, they are hard to find, and expensive to replace. **CPR** has access to hundreds of OEM panel silk-screens, even from aircraft that are no longer built. Panels can be back to you in a week or less at a fraction of the cost of a new panel.

CPR IS ONLY AT CESSNA SERVICE STATIONS

WHY BRING YOUR AIRCRAFT TO A CESSNA SERVICE STATION?

- **GENUINE CESSNA PARTS**
Genuine **Cessna** Parts are the Original Equipment (OE) parts used by **Cessna** to build your aircraft. There is never a question about certification, approvals, or trace-ability with Genuine **Cessna** Parts.
- **GENUINE CESSNA SERVICE**
With factory trained technicians, the most current technical information, and specialized tooling, your **Cessna** Service Station will service your aircraft properly.
- **GENUINE CESSNA VALUE**
Having your aircraft serviced at a second-rate facility for a bargain price is not a value. Bring your aircraft to a **Cessna** Service Station where you will get Genuine **Cessna** Parts & Genuine **Cessna** Service at a fair price. That's a value.
- **IT'S A SURE THING...**
Having your aircraft serviced by factory-trained technicians using factory approved parts. That's genuine peace of mind. It's all a part of doing business with a Sure Thing.

GENUINE **CCESSNA** PARTS. GENUINE **CCESSNA** SERVICE. GENUINE **CCESSNA** VALUE. A SURE THING.

EXCLUSIVELY AT **CCESSNA** SERVICE STATIONS
